

## Diagnostic and Nuclear Medical Physics Residency Program Required or Recommended Conference Participation

| Title   | Organization               | Frequency                     | Resident's Role        | Required               |
|---|----------------------------|-------------------------------|------------------------|------------------------|
| <b>Local or national:</b>                         |                            |                               |                        |                        |
| National AAPM Meeting                             | AAPM                       | Annually                      | Attendee or presenter  | No                     |
| RSNA Meeting                                      | RSNA                       | Annually                      | Attendee or presenter  | No                     |
| SNMMI Annual meeting                              | SNMMI                      | Annually                      | Attendee or presenter  | No                     |
| Penn-Ohio Spring Dinner Meeting                   | Penn-Ohio Chapter of AAPM  | Annually                      | Attendee or presenter  | Strongly encouraged*   |
| Penn-Ohio Fall Symposium                          | Penn-Ohio Chapter of AAPM  | Annually                      | Attendee or presenter  | Strongly encouraged*   |
| <b>Institutional:</b>                             |                            |                               |                        |                        |
| Imaging Institute Grand Rounds                    | Imaging Institute          | Biweekly                      | Attendee               | Required to attend 50% |
| Rotation Presentation                             | Section of Medical Physics | One per rotation              | Presenter              | Required               |
| Conference talk rehearsal                         | Section of Medical Physics | As needed                     | Presenter              | No                     |
| Physics lectures for radiology residents          | Imaging Institute          | Weekly between August and May | Attendee               | Yes**                  |
| Physics hands-on sessions for radiology residents | Imaging Institute          | March, April, and May         | Attendee and Assistant | No                     |

|                                       |                   |          |                        |  |
|---------------------------------------|-------------------|----------|------------------------|--|
| Radiology research day                | Imaging Institute | June     | Attendee or presenter  | Strongly encouraged                                    |
| CT workshop for imaging technologists | Imaging Institute | Annually | Attendee and assistant | Required to participate at least once during residency |

---

\*Residents are strongly encouraged to attend these two local meetings. Registration fee is free for trainees.

\*\*Residents are required to attend each lecture at least once during the residency.
