

C5Research

C5Research is a team of experienced and dedicated clinical trial specialists within the Heart, Vascular & Thoracic Institute of Cleveland Clinic. We bring scientific and clinical leadership in cardiovascular disease in combination with operational excellence to conduct Phase II-IV multicenter clinical trials. We understand industry timelines and commit to delivering on time. We bring world class academic leadership to clinical trials and a viewpoint and independence that satisfies the demanding peer-reviewed scrutiny of the academic and scientific community.

Mission

Design and conduct innovative clinical research that enhances scientific knowledge and positively impacts the care of patients.

Research Priorities

Patients	Integrity
Investigators	Compliance

Functional Teams

- Project & Site Management
- Clinical Events Committee
- Quality Assurance & Regulatory
- Imaging Core Laboratory
- Contracts & Finance
- Graphics & Design
- Information Systems
- Statistics & Data Management

Physician Leadership

- Steven E. Nissen, MD
Chief Academic Officer, Heart, Vascular & Thoracic Institute
- Venu Menon, MD
Associate Director of C5R & Director of Clinical Events Committee
- Wael A. Jaber, MD
Director, Cardiovascular Imaging Core Laboratory
- Rishi Puri, MBBS, PhD
Director, Atherosclerosis Imaging Core Laboratory
- Vidyasagar Kalahasti, MD
Associate Director, Clinical Events Committee
- Luke Laffin, MD
Co-Director, Center for Blood Pressure Disorders
- Milind Desai, MD, MBA
Director of Clinical Operations of Cardiovascular Medicine
- Erik Van Iterson, PhD, MS
Director, Cardiac Rehabilitation & Quality Director, Metabolic

Clinical Trial Results

Publication of trial results in top tier medical journals having a major impact on the practice of medicine
